Solar EPC FAQs

Q1. What is Solar EPC?

A: Solar EPC stands for Engineering, Procurement, and Construction. It includes designing, supplying, installing, testing, and commissioning a complete solar power plant.

Q2. What types of solar projects do you undertake?

A: We execute residential, commercial, industrial, institutional, and utility-scale solar power projects.

Q3. Do you provide turnkey solar solutions?

A: Yes. We handle everything from site survey and design to procurement, installation, commissioning, and after-sales support.

Q4. How long does a solar installation take?

A: Depending on the project size, installation can take anywhere from a few days for residential systems to several weeks for large commercial or industrial projects.

Q5. Do you provide Operation & Maintenance (O&M) services?

A: Yes. We offer preventive maintenance, performance monitoring, cleaning, troubleshooting, and annual maintenance contracts (AMC).

Q6. How much can I save with solar?

A: Savings depend on your electricity consumption, system size, and local tariff. Most customers experience significant reductions in electricity bills after installation.

Q7. Do you assist with government subsidies and approvals?

A: Yes. We guide eligible customers through applicable government schemes, approvals, and documentation.

Manufacturing FAQs (Earthing, Lightning Protection & GI Products)

Q1. What products does Sunplus Power manufacture?

A: We manufacture Earthing Electrodes, Lightning Arresters (LA), Copper Bonded Earth Rods, GI Earth Strips, Earthing Accessories, and related grounding solutions.

Q2. Are your products tested for quality?

A: Yes. All products undergo stringent quality inspections to ensure compliance with applicable industry standards.

Q3. Can you manufacture customized products?

A: Yes. We provide customized sizes and specifications based on project requirements.

Q4. Do you supply products across India?

A: Yes. We have a nationwide supply network to serve projects across India.

Q5. Are your products suitable for industrial applications?

A: Yes. Our products are widely used in industrial plants, solar projects, telecom, infrastructure, commercial buildings, and utilities.

Q6. Do you provide technical support for product selection?

A: Yes. Our technical team helps customers choose the most suitable earthing and lightning protection solutions.

Q7. What industries do you serve?

A: We serve the solar power, manufacturing, and commercial.

Dealer & Distributor FAQs**Q1. How can I become a Sunplus Power dealer or distributor?**

A: Simply contact our sales team with your business details. Our team will review your application and guide you through the onboarding process.

Q2. What are the eligibility criteria?

A: Dealers and distributors should have a registered business, market presence, and the capability to promote and distribute our products.

Q3. What support do you provide to dealers?

A: We provide product training, marketing support, technical assistance, sales guidance, and timely order fulfilment.

Q4. Is there a minimum order requirement?

A: Yes. Minimum order quantities vary depending on the product category and dealership type.

Q5. Do you offer exclusive dealership opportunities?

A: Exclusive dealership may be offered based on market potential, business performance, and territory availability.

Q6. How quickly are orders dispatched?

A: Dispatch timelines depend on product availability and order quantity. Our team ensures timely processing and delivery.

Q7. How do I place bulk orders?

A: Bulk orders can be placed by contacting our sales team through phone, email, or the enquiry form on our website.

Q8. Do you provide marketing materials?

A: Yes. Dealers receive brochures, product Catalogs, technical documents, branding support, and promotional materials.

General FAQs**Q1. Why choose Sunplus Power?**

A: We combine quality manufacturing, reliable EPC execution, technical expertise, and customer-focused service to deliver safe and dependable energy and grounding solutions.

Q2. Do you offer PAN India services?

A: Yes. We provide manufacturing supply, EPC services, and project support across India.

Q3. How can I request a quotation?

A: You can contact our sales team by phone, email, or submit an enquiry through our website. We'll respond with a customized quotation based on your requirements.

Q4. Do you provide warranty on your products and services?

A: Yes. Warranty coverage is provided as per the product category and project scope. Please contact our team for specific warranty details.
